

## Ocsam TPMDX

### robot

Pre-owned Ocsam Cepak transfer system feeding the blank magazine of the canbody welder with cut blanks from the slitter. Thanks to its substantial reserve capacity for blanks, the transfer unit can compensate for short upstream or downstream production interruptions, thus guaranteeing non-stop operation of the production line.

### Especificaciones técnicas

<b>CazProductNumber</b> EMPRESA	6666
<b>Nombre</b>	Ocsam TPMDX
<b>Herramientas</b>	127*163 mm
<b>Año de construcción</b>	2018
<b>Forma del envase</b>	round
