

Ocsam TP 1001 GP

robot

Ocsam Cepak transfer system feeding the blank magazine of the canbody welder with cut blanks from the slitter. Thanks to its substantial reserve capacity for blanks, the transfer unit can compensate for short upstream or downstream production interruptions, thus guaranteeing non-stop operation of the production line. Can size is Ø 99 x 129 (H) mm.

Especificaciones técnicas

CazProductNumber EMPRESA	6683
Nombre	Ocsam TP 1001 GP
Herramientas	99 x 129 mm
Año de construcción	1985
